

Other Creative Opportunities to Serve

The Clothing Bundle Project

The Projects Centre includes a clothing sorting room. We invite interested volunteers to organize a group and schedule an event onto your community calendar. This practical hands-on activity involves inspecting used clothing for quality, filling bags, and compressing them into bales for shipping.

Comforter Knotting

The Projects Centre is uniquely designed to transform the warehouse into a large-scale comforter knotting area. This expansive floor space allows organizers to set up to 30 comforter frames at one time. The heated floor provides a comfortable working environment for winter-time events.

Sewing Stations

The Projects Centre features 5 permanent sewing stations complete with drawers full of notions and supplies. We invite volunteers to come and invest your sewing skills into mending or making modifications to rejected clothing.

Call our Volunteer Coordinator to book an event at the Projects Centre: (519) 498-3023.

Christian Aid Ministries Canada believes that the greatest asset to outreach ministry is the support base. Each contributor – whether a hands-on volunteer or a financial donor – is a partner with God's people, working together to expand His kingdom. The purpose of the Projects Centre is to provide a unique gathering-place filled with opportunities to serve that meet the interests and ambitions of your community. Indeed, we welcome new ideas to consider as we perpetually seek out new opportunities to bless others in the name of Jesus.

Call our Projects Centre Manager today to discuss opportunities and ideas to provide a life-changing blessing for others: (519) 498-3023.

**Projects
Centre**

A place where communities
converge to bless others...

Christian Aid
MINISTRIES
CANADA

The Projects Centre is more than a building; it is a vision to provide a place with the capacity and resources to accomplish hands-on tasks that directly bless our impoverished friends in the world. We provide an efficient facility where projects can be organized with sufficient space to accommodate large groups, complete with a hospitality area where food and fellowship can be enjoyed together.

Projects You Can Do

Christian Aid Ministries has published a "Projects You Can Do" brochure for many years. This informative pamphlet offers a wide variety of kits that can be assembled by our supporters. It provides a detailed list of contents to include and details about how to package everything together. This program has generated broad participation and an enthusiastic response by many communities across Canada. At the Projects Centre, we have ambitions to grow this program to new proportions.

How do I plan a project?

There are 3 ways that you can organize and plan an event for your community.

1. The Independent Initiative

The organizing party is 100% in charge, providing the venue and acquiring the contents for the kits.

Details: Those who are responsible will need to review our published contents list and purchase all the supplies. They will need to find a facility within which to hold the event, and set up systems for assembly, packaging, and final inspection for compliance. This independent option is ideal for communities that are not in close geographical proximity to the Projects Centre. ***This arrangement will continue to rank high as the most popular and the greatest contributor to CAM's annual kit production.**

2. The Collaborative Approach

The organizing party is responsible for the venue, but we provide the contents for the kits at wholesale cost.

Details: The Projects Centre can provide all the contents for all kits at wholesale prices. If the organizers prefer to host their event in their local community, but loathe the monumental task of procuring the supplies, we can help! Our coordinator can plan a

time and date for the hosting party to come to the warehouse and pick up all the supplies needed for the project. The wholesale value of the contents can be reimbursed to CAM in the form of a donation with eligibility for a tax-deductible receipt.

3. The Full Package Deal

We will provide the venue for the event AND the contents for the kits at wholesale cost.

Details: The entire facility, including the hospitality area, can be used at no charge. The wholesale value of the contents can be reimbursed to CAM in the form of a donation with eligibility for a tax-deductible receipt.

Call our Projects Coordinator to discuss further details: (226) 748-9618

*The Hygiene Kit is still in high demand at our international bases, especially in refugee camps. However, it is no longer promoted in our brochures because of the concern about expired "best before" dates. If you are interested in supplying hygiene kits, please coordinate your project with us.
